The Annals of
Regional Science
© Springer-Verlag 2001

Contents of volume 35

Andaluz J: The effects of antidumping legislation on the degree of product variety and social welfare 561

Azzoni CR: Economic growth and regional income inequality in Brazil 133

Batabyal AA → Xu Q

Batten DF: Complex landscapes of spatial interaction 81

Boschma RA → Lambooy JG

Brasington DM: A model or urban growth with endogenous suburban production centers 411

Brännäs K → Berglund E

Bergkvist E, Westin L: Regional valuation of infrastructure and transport attributes for Swedish road freight 547

Berglund E, Brännäs K: Plants' entry and exit in Swedish municipalities 431

Cuadrado-Roura JR: Regional convergence in the European Union: From hypothesis to the actual trends 333

Donaghy KP, Federici D, Gandolfo G: Continuous-time estimation of an endogenous growth model of an open economy 449

Eliasson J: Road pricing with limited information and heterogeneous users: A successful case 595

Federici D → Donaghy KP

Fischer MM: Innovation, knowledge creation and systems of innovation 199

Fletcher RG → Moscove BJ

Flota C, Mora MT: The earnings of self-employed Mexican Americans along the U.S.-Mexico border 483

Folmer H → Jeppesen T

Freeman DG: Sources of fluctuations in regional growth 249

Fujita M, Hu D: Regional disparity in China 1985–1994: The effects of globalization and economic liberalization 3

Gandolfo G → Donaghy KP

Hsu S-k, Tan L-t: Production location choice and risk aversion 239

Hu D → Fujita M

Hwang H, Lin Y-S, Mai C-c: On the optimal production and location of a labor-managed firm 217

Jeppesen T, Folmer H: The confusing relationship between environmental policy and location behaviour of firms: A methodological review of selected case studies 523

Kaashoek JF, Paelinck JHP: Potentialised partial differential equations in spatial economics: Some further results on the potentialising function 463

Karlsson C, Zhang W-B: The role of universities in regional development. Endogenous human capital and growth in a two-region model 179

Kim TJ, Knaap G: The spatial dispersion of economic activities and development trends in China: 1952–1985 39

Klaesson J: Monopolistic competition, increasing returns, agglomeration, and transport costs 375

Knaap G → Kim TJ

Kristensen G → Zhang J

Lall SV, Yilmaz S: Regional economic convergence: Do policy instruments make a difference? 153

Lambertini L: Vertical differentiation in a generalized model of spatial competition 227

Lambooy JG, Boschma RA: Evolutionary economics and regional policy 113

Lee SW, Zhee WS: Independent and linked migration: Individual return of employment opportunity and household return of poverty status to African American interstate migration 605

Liew CJ, Robinson DP: Measuring dynamic economic effects under the constant-technology versus varying-technology assumptions 299

Lin Y-S → Hwang H

Mai C-c → Hwang H

Mora MT → Flota C

Moscove BJ, Fletcher RG: The new century: Lessons learned from Singapore's shopping sector during the 1990's
Discussion by Juanita C. Liu 501

Munroe S: Retail structural dynamics and the forces behind big-box retailing 357

Naito MK: General equilibrium spatial models 395

Ouwersloot H, Rietveld P: On the distance dependence of the price elasticity of telecommunications demand; review, analysis, and alternative theoretical backgrounds 577

Paelinck JHP → Kaashoek JF

Quigley JM: The renaissance in regional research – Comments by Geoffrey J. D. Hewings 167

Rietveld P → Ouwersloot H

Robinson DP → Liew CJ

Stough RR: Editor comments. Regional disparities and China development policies 1

Sun SH → Wong SC

Tan L-t → Hsu S-k

Uimonen S: The insufficiency of Pigouvian taxes in a spatial general equilibrium model 283

Westin L → Bergkvist E

Wong SC, Sun SH: A combined distribution and assignment model for continuous facility location problem 267

Xu Q, Batabyal AA: Price competition, pollution, and environmental policy in an open economy 59

Yilmaz S → Lall SV

Zhang J, Kristensen G: The paradox of unequal regional investment and equal regional economic growth in China 637

Zhang W-B → Karlsson C

Zhee WS → Lee SW

The journal is ranked in: Current Contents/Social and Behavioral Sciences, CSA Political Science & Government, EconLit, e-JEL, and JEL on CD, GEOBASE, International Bibliography of Social Sciences (IBSS), International Regional Science Review (IRSR), ISI Alerting Services, Population Index, Social Scisearch, Research Alert, Sage Urban Studies Abstracts, Social Science Citation Index (SSCI), Social Science Research Network (SSRN)
